Speed Check Question Order Form

National Academic Quiz Tournaments is pleased to announce that its Speed Check series are now available. Speed Check sets are collections of short tossup-style questions that, like our lightning rounds, were written primarily for use on televised quiz shows around the country, but now they're available as practice material.

Shorter questions are useful for warming up at the start of practice or for doing more rapid-fire drilling with your team. These questions are short but still packed with clues in a pyramidal structure (hardest clues first, easiest clues last).

Check your speed with these Speed Checks:

King Aeetes of Colchis pursued Jason and Medea after the Argonauts stole what mythical sheepskin?
 answer: Golden Fleece

Carbon atoms attached to a hydrogen atom, a side chain, a carboxyl group, and an NH₂ group form what acidic building blocks of proteins?
 answer: (alpha-)amino acids (prompt on "peptide")

There are sixteen Speed Check sets available, each of which contains 10 packets (a total of 400 questions per set). The cost of one set (**including shipping**) is \$20, but there are discounts for buying multiple sets at one time:

1 set <small>(400 questions)</small>	2 sets <small>(800 questions)</small>	3 sets <small>(1,200 questions)</small>	4 sets <small>(1,600 questions)</small>	5 sets <small>(2,000 questions)</small>	6 sets <small>(2,400 questions)</small>
\$20	\$40	\$60	\$75 <small>(9% discount)</small>	\$85 <small>(15% discount)</small>	\$95 <small>(20% discount)</small>

If you've ordered questions from NAQT before, **don't worry about receiving duplicates**. We'll check our records and send you the most recent sets that you don't already have.

To place an order by **fax**, fill out the fields to the right, circle the number of the sets that you want above, and fax this form to **(413) 473-1617**. We'll send you an invoice.

To place an order by **mail**, fill out the fields to the right, circle the sets you want above, and mail this form **with a purchase order or check** to:
